ORNAP NATIONAL BOARD OF DIRECTORS 2021-2022

JANE ETHEL C. YRAOLA, MAN, RN
President
National Kidney & Transplant Institute

GABRIEL F. NAIG, MAN, RN
Vice President
Fatima University Medical Center - Valenzuela

MARIA VENUS L. QUINSAY, MAN, RN
Secretary
Asian Hospital & Medical Center

LIZA N. SANTIAGO, MAN, RN
Assistant Secretary
Philippine Heart Center

JEOVIE F. JOYA, MAN, RN
Treasurer
Philippine Orthopedic Center

ERNESTO R. TOLENTINO, JR, RN
PRO
Our Lady of Lourdes Hospital

ROSARIO G. DUMANGON, MAN, RN
Auditor
East Avenue Medical Center

JENNIFER G. CAPILI, MSN, RN
Board
Cardinal Santos Medical Center

MICHAEL VINCENT V. MERCADO, RN
Board Member
UP-Philippine General Hospital

CECILIA R. PECITO, RN
Board Member
St. Luke's Medical Center - Global City

NOMELEC

William A. Corpuz, RN
Member
National Kidney & Transplant Institute

Jhonna B. Fojas, RN
Chairperson
UP-Philippine General Hospital

Remo D. Palgan, MAN, RN
Member
East Avenue Medical Center

PRESIDENT'S CORNER

2020 proved to be a year like no other, with COVID-19 spreading like wildfire and with no answer in sight. Everyone was severely affected. People lost their loved ones, businesses were closed, and some lost their means of living. We were forced to isolate and distance ourselves from each other. The pandemic restricted people's ability from doing what we were made to do: communicate.

The ORNAP was not exempt from this, integral in containing the virus, staff was deployed everywhere and most of us were deployed in various areas. Everyone experienced long, never-ending shifts with little rest just to make up for lost personnel.

Time rolled by slowly, seemingly with no answer in sight. Until the year 2021 arrived and vaccines became more common, strict measures were gradually loosened and establishments reopened. As new admissions decreased, so did the COVID census in hospitals.

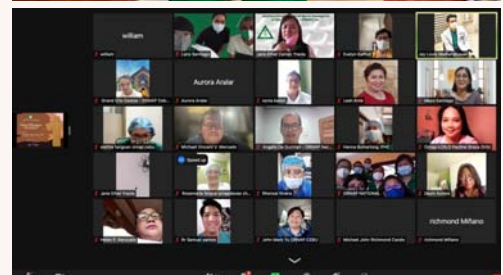

During these trying times, our organization kept to its credo of promoting the highest professional standard of Perioperative Nursing. Taking the challenge of restrictions and manpower shortages head-on. In lieu of face-to-face meetings and conferences, we successfully conducted several virtual activities such as our webinars. To cite, we held our first "ORNAP Virtual 46th Annual Convention and Scientific Meeting" and "48th Founding Anniversary" on July 3 and 4, 2021.

Likewise, our regional chapters like Zamboanga, CARAGA, Northern Mindanao, Negros Occidental, Oriental Mindoro, Misamis Occidental, Iloilo, and Cagayan Valley followed suit. Our collaboration with other organizations such as the Philippine College of Surgeons (PCS), Philippine Association of Laparoscopic and Endoscopic Surgery (PALES), Philippine Surgical Infection Society, (PSIS), PCS Surgery in the Underserved Regions, and for Education Commission (SURE) among others.

Our meetings with policymakers bore fruit. We had a courtesy call with the Board of Nursing, Dr. Elsie Tee, Dr. Salvani, Dr. Borromeo, and Dr. Divinagracia for collaboration regarding Career Progression and Specialization, Level Alignment Matrix (CPS- LAM) of ORNAP. On December 23, 2021, the Department of Health, Office of the Secretary issued Department Circular No. 2021 0576 with Subject Endorsement of our Modified Surgical Safety Checklist. It was endorsed to the DOH Hospitals, as developed by the PCS in cooperation with the ORNAP.

The thrust of my incumbency was to improve the ORNAP as an institution, activities shall be based upon the development of by-laws and manuals. Through the Manual Committee led by Ms. Rosario Dumangon as Chair, its members, composed of yours truly, Mr. Gabriel Naig, Ms. Teresita Artuz, Ms. Julieta Mancelita, Ms. Analyn Salivio, and Ms. Redenta Mamaclay. ORNAP Officers, Past Presidents, Advisers, Officers of past, and our beloved chapters we are proud to report that we have completed the Manuals composed of five (5) volumes to serve as guides for all that will come after us.

The ORNAP has also made sure that our spiritual needs were met during this pandemic, in lieu of our two (2) days retreat, we held a Virtual Recollection and Mass via Facebook. I extend my gratitude to Ms. Leonila Faire, past president and the matriarch of ORNAP for her inspirational testimony, and to Father Ted Bundok for officiating the Mass and Recollection. As well as the officers of the chapters and the Board of Directors that were physically present that participated in this pioneering activity.

PRESIDENT'S CORNER

November 2021 marked our *"Virtual Perioperative Nurses Week"*, a three-day event composed of a Virtual Forum entitled *"Kapehan sa ORNAP"*, nationwide simultaneous blood letting drive with a poster and video-making contest, a virtual quiz bee, and a virtual mass at the end. Our heartfelt thanks to those who came in to support the event such as the representative from DOLE, DOH, and our Legal Council Dr. Atty. Rebosa, yours truly, and our Vice President, Mr. Naig as Panelists.

We also acknowledged the presence of our NKTi Deputy Executive Director for Nursing. For Dr. Nerissa M. Gerial's presence during the Perioperative Nurses Week and also our Executive Director of NKTi, Dr. Rosemarie Liqueste, for attending the mass and presiding priest, Father Brian Rances.

The UP Ambassador Choir, led by conductor Mr. Ed Pamintuan, in collaboration with Dr. Gladys Bloom Canlas Victoriano, The Harris Memorial College freshman, and junior choirs, thanks to Dean Leah Lumba, the choir performed a virtual mini-concert for the health workers. Messages of support from celebrities of GMA courtesy of Ms. Phobel Yraola Vinarao, Senior Admin Manager, entertainment group of GMA. This was graced by the current officers of ORNAP, along with past presidents, Chapter Officers, and other health workers. Our thanks to you.

Thank you, Dr. Ray Gapuz, and your staff, for your unconditional and unyielding support of the National and Regional Chapters' activities. Thank you blood donors for contributing to people's lives, thank you, Dr. Manuel Canlas, past president of ORNAP, thank you for donating during this event and for being a consistent donor at their Institute. Thank you, Yvan Ignacio, for hosting the simultaneous bloodletting drive with the National and ORNAP Chapters.

Despite the pandemic, ORNAP has continued with its activities, including the distribution of vitamins to members and other health workers, assistance to Typhoon Odette victims through our Chapters, and the distribution of a love gift on December 8 at the convent of Holy Spirit in New Manila with Sr. Bernadette Oppus and past president Sr. Anna Magpili.

Regional Chapters increased their activities in their respective areas through a variety of means, such as surgical missions, gift giving, operation *tuli*, bloodletting drive, tree planting, and clean-up drives. Webinars and Virtual Training were a staple and proved to be quite useful as exchanges of information, updates, and experiences were shared at a faster rate with a larger crowd due to their accessibility. This also served as an avenue to articulate improvements and changes. The NMC's convention in November 2022 was noteworthy.

Our resiliency and efforts were challenged by the Omicron Variant early this year, with cases rising and hospitals changing their dynamic because of shortages in the workforce. Because of sub-optimal conditions, health care workers took the brunt of the wave, which in turn affected the activities of our Chapters.

PRESIDENT'S CORNER

The Cagayan Valley Chapter moved theirs to February 26, 2022, and the Iloilo Chapter was moved to March 5, 2022. The variant ravaged the provinces. But their conventions were successfully launched via Zoom during this time. The PALES-ORNAP Webinar was moved twice but was successfully launched on March 12, 2022, via the Zoom platform. Thanks to our National Board of Directors, our energetic PALES President Dr. Miguel Mendoza, Dr. Domino, Dr. Azores, Dr. Juvy, and other members of PALES for the vigor to collaborate with the ORNAP family. We would like to thank Johnson and Jonhson and its staff, Ms. Miya, Ms. Carol, Mr. Mervin, and other members for their invaluable assistance and support with the PALES-ORNAP collaboration. We also partnered with the Ophthalmology Association, MIMS, Pfizer, and The Manila Times.

We recognize the superhuman efforts of our Chapters, with some awarded their ORNAP accreditation. In celebration of their doubly hard work. They persevered and ORNAP is spreading through them.

Other activities of note are those from the Misamis Occidental Chapter with their advocacy of the aforementioned Modified WHO Surgical Safety Checklist, which stresses its importance for both patients and members of the surgical team. The Mindoro Chapter with their conference last March 2022. On June 11, 2022, Misamis Occidental Chapter had its conference and surgical mission. These activities were given CPD units in collaboration with the BON, PRC, Chapters, and National.

PRESIDENT'S CORNER

March 24, 2022, is an important date for all of us, as this was the day that the ORNAP acquired its new office, located at 21 Brahms St., Ideal Subdivision, Commonwealth Avenue, Quezon City. A goal forty-nine (49) years in the making, with careful planning, criteria setting and legal consultation, we can all finally have a home. Truly God is good! Despite all the challenges, He provides.

This is a symbol of unity, resilience, and continuous support from the ORNAP community and is part of our commitment to serving our members and clients, among others, for their personal growth and professional development guided by our logo; Caput, Cor, Manus. We finally have a Domus (home) for raising the bar of excellence in perioperative nursing practice.

Its blessing and unveiling were held last June 11, 2022, with officers, members, friends, and industry partners present physically and virtually. Our heartfelt gratitude to everyone. You are all welcome to our new home, everyone's answered prayer.

We are delighted to inform you that we shall be having a Scholarship Program, as put forward by Ma'am Leonila Faire, through the Ad Hoc Committee chaired by Liza Santiago, yours truly, Mr. Gabriel Naig, Dr. Manuel Canlas, Ms. Teresita Artuz, Ms. Caroline Valdepenas, and Ms. Rajel Belen. The criteria are financial and educational support to deserving members of the organization. This is based on the objectives prepared by the committee. Stay in touch for further development on this matter.

PRESIDENT'S CORNER

Last May 28-29, 2022, together with our Past National Presidents, we were able to visit some hospitals of our Chapters in Cavite and Laguna, together with their officers and members we had to collaborate with the various hospital management present there. On June 12, we got to visit Pangasinan Chapter. We enjoyed planning their hybrid conference on July 17, 2022, and we invited everyone to participate too. On the same date, we visited Baguio Chapter to discuss the re-invigoration of their chapters. We visited the Our Lady of Manaoag and Baguio Cathedral to offer our thanks to the Lord for all the blessings for the entire year. We also seek his help and surrender everything to Him. We thank our almighty God that through all the hardship we were able to overcome all the struggles and challenges.

Leading to this event, Tree Planting was done simultaneously with other Chapters and this was published through our website and Facebook on June 11, 2022.

To the Iloilo Chapter, my warmest congratulations for achieving the best performing Chapter for 2020-2021. You have exemplified resilience and proven that ORNAP's resurgence is paving the way and emerging Triumphant amidst this pandemic.

I would like to pay homage to the two past presidents, who have joined our Lord this year, Ms. Soccorro A. Nombres and Col. Virginia G. Coccal. Their dedication and unending love for our organization contributed to what made ORNAP the exemplar of nursing organizations. Thank you so much Ma'am Sockie and Col. Coccal.

I would also like to take this opportunity to personally express my utmost gratitude to the following people who made this journey lighter and more enjoyable;

To all our past presidents, our Chapters, and our members present on-site and online, as well as our allied health workers, thank you very much for your keynote address speaker, DOH Undersecretary, Maria Rosario S. Vergeire.

Our Resource Speakers in the National and Regional webinars and conventions both in the past and present, thank you for sharing invaluable knowledge and experience with everyone.

Manila Hotel, Jeff Gullisoft, AT3, website c/o Dumy. All our NKT1 technical partners, Mr. Rolando de Vera and team, our OR nurses, Mr. Yvan Ignacio, Mr. Malvin Lim, Jeffrey Toredes, Carl John Austria, and our MST, Mr. John Paul De Vera, Mr. Clyde Abit, Industry Partners, and Exhibitors. Mr. Angelo de Guzman, our Secretary, for his invaluable contributions to ORNAP.

Thank you to Ms. Leonila Faire for giving me inspiration and assurance, I look up to her, and her contributions until now are what made the ORNAP recognized and truly dignified. I am very thankful to Ms. Teresita Artuz, and her husband Atty. Rudy Artuz, for guiding our organization not only with by-laws and manuals but also when it comes to legal matters, especially during the purchase of our new office. Thank you Ms. Redenta Mamclay and Ms. Julieta Mancelita, Ms. Mayo Santiago, for always being present during our meetings and other activities. I also thank you, Ms. Aurora Aralar and Ms. Marilyn Aro for your guidance.

PRESIDENT'S CORNER

Mr. Gabriel Naig, I want to thank you for being my partner through thick and thin. *"Unbeatable partner ika-nga"*. To my fellow Board of Directors and NOMELEC, thank you for all the effort, perseverance, and love for our organizations day and night. *Umulan o umaraw ayos lang*. Our industry partners, and our linkages, for all the support. To my National Kidney and Transplant Institute (NKTI) family, my OR staff, our directors, and especially to our Executive Director, Dra. Rose Marie Liqueste, our Deputy Executive Director in Nursing, Dr. Nerissa M. Gerial, and my Department Manager, Ms. Mercedita Jocson, for their invaluable contributions to our organization and for supporting me and giving me time to finish and fulfill what I have promised to ORNAP. Our partners in policy-making are the PRC Board of Nursing, Dr. Elsie Tee, Dr. Merle Salvani, Dr. Carmelita Divinagracia, Dr. Annabelle Borromeo, Dr. Gloria Arcos, and Dr. Glenda Arquiza. Mr. Melvin D. Miranda, PNA National President.

Thank you also to our energetic emcee and moderator for today's exercise, Ma'am Cathline Avellana, and PNA Vice President for Programs & Development Governor Region VIII, Sir Alfon Guillen D. Daga.

And of course to my family, my parents, my sisters, my husband, Dr. Lamcel Yraola, and my son John Nathan Yraola for standing by my side throughout my term.

July 2 and 3, 2022, our national hybrid, 47th Annual Convention & Scientific Meeting and 49th Founding Anniversary with the theme *"Triumphant in Perioperative Nursing"* describes the Love of God that even in the midst of uncertainty there is hope, and we are here today gathering and giving inspirations. A triumphant return to a new normal.

Through these meetings and all our efforts, we can say that we stay connected.

Truly I say God is Love.

God bless everyone.

Thank you, Lord!

JANE ETHEL C. YRAOLA, MAN, RN
President
National Kidney & Transplant Institute

VICE PRESIDENT'S CORNER

To quote Florence Nightingale *“So never lose an opportunity of urging a practical beginning, however small, for it is wonderful how often in such matters the mustard-seed germinates and roots itself”*.

The periOperative Registered Nurses Association of the Philippines (ORNAP), Inc. current Board of Directors for FY 2021-2022 started with a simple yet impactful beginning despite uncertainties. A practical beginning that needs to be nourished, sustained and flourishing.

Our beloved organization through the current Board of Directors continually creates various activities, projects, and programs that strengthen the capacity of a perioperative nurse as a member of a team through continuing professional development webinars and that tackle relevant and timely issues that have an impact on the perioperative practice. Likewise, by conducting programs that develop not only the professional aspect but changing the perspective and shift the mindset of perioperative practitioners towards positive change, thus quality and safe perioperative care are achieved.

Most importantly, the organization exerted effort to sustain and exceed its capability to create a huge impact and translate the mission, vision, and objectives to the perioperative members, community, and to profession.

A simple beginning turns into beautiful and lasting forever rooted with CAPUT, CORE, and MANUS.

GABRIEL F. NAIG, MAN, RN
ORNAP Vice President

embracing THE NEW NORMAL in handling surgical cases

by Jonathan Rey B. Sulayao, RN, MAN

Due to the COVID-19 pandemic discovered in Wuhan, China in December of 2019, the operating room has abruptly transformed and coped with the new normal to accommodate the needs of continuing surgical procedures. The study sought to ascertain the changes that occurred in surgical case management practices prior to and during the pandemic, identify problems encountered in terms of safety, infection control, communication, and management, and develop a practice-based guideline based on the identified issues. This study utilized a concurrent triangulation mixed method design with a total population of 100 operating room nurses from private tertiary hospitals in Batangas. The quantitative data generated in this study through a self-report questionnaire suggests a statistically significant improvement in the practices in handling surgical cases before and during pandemics with a p-value of 0.000 in the pre-operative, intra-operative, and post-operative phases.

The researcher was able to formulate an Operating Room Model of Metamorphosis derived from the qualitative data analysis using thematic analysis, which can be utilized to further assess if there are changes in the protocols or guidelines that need to be facilitated in the unit to match with the phase of the current situation. Therefore, tailored-fit guidelines or protocols can be coined and applied appropriately to the operating room. With the synthesis of both quantitative and qualitative data, the researcher arrived at a recommended guideline to further improve the practices in handling surgical cases in this pandemic time and for sustainability that can be applied in the hospitals within the community.

The lessons that were learned from the COVID-19 pandemic will lead to new strategies for a substantial rearrangement of the routine in surgical practice, ensuring quality standards and preserving safety for both health workers and patients, thus embracing the new normal.

Operating Room Model of Metamorphosis

- Stage Three: The Operating Room and its nurses strive to meet the standards that help them grow as impermeable pupa. This is where the hardening of the shield and the harnessing of protective minds by strictly adhering to protocol happens.
- Stage Four: Having surpassed the challenges through strategic actions, the operating room and its nurses finally evolved into strategic butterflies.

The Operating Room Model of Metamorphosis, derived from the results of qualitative data analysis, has been developed to assess the level of practices in the operating room. This can be utilized to further evaluate the existing protocols in the area to match the phase of the current situation. This model can be used as a decision-making tool during this pandemic period and if, in the future, the operating room might encounter another pandemic or epidemic.

In addition, the researcher has come up with a practice-based guideline using the Operating Room Metamorphosis Model and incorporating the results of the quantitative data analysis. Although the results show highly significant in all indicators for pre-operative, intra-operative, and post-operative, the researcher would like to focus on the items with the lowest scores for sustainability. The researcher strongly recommends consideration of the below alongside the existing protocols.

Healthcare in this time of pandemic must evolve to be able to render safe and quality service to the patients, and so the operating room, just like the biological process that occurs in an animal, results in a physical transformation through cell growth and differentiation, also known as metamorphosis.

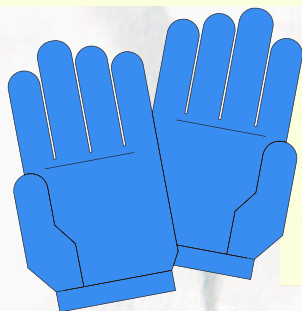

- Stage One: At the beginning of the pandemic, operating room nurses can be compared to a vulnerable egg. With little knowledge of the virus they are facing, comes fear and anxiety. Supplies are not available; perioperative services are not ready.
- Stage Two: Vulnerability triggered the operating room and its nurses to evolve into striving larva. This is where protocols and guidelines are created.

RECOMMENDED GUIDELINES IN HANDLING SURGICAL CASES DURING COVID-19 PANDEMIC

by Jonathan Rey B. Sulayao, RN, MAN

MENTAL HEALTH AWARENESS

- Debriefing of staff by the end of the shift or post-shift huddle.
- One-on-one coaching or focused group discussion amongst the staff where they can voice out their emotions and feelings toward work.
- Individual counseling for staff as needed.

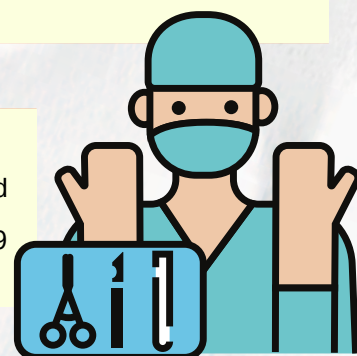

- Conduction of up-trainings with the latest updates in the policy and protocols, including return demonstration as necessary.
- Inclusion of transport personnel and housekeeping in the training for institutional protocols is essential.
- Re-evaluation of the existing policies and procedures for the staff on a regular basis.

TRAINING

POLICY AND PROCEDURES

- All surgical team members are tested for COVID-19 prior to the surgical procedure.
- All members of the surgical team are screened for COVID-19 symptoms and exposure, including body temperature, prior to donning.
- Relatives or companions of the patient during hospitalization are tested for COVID-19 prior to entering the hospital premises.

EQUIPMENT AND INFRASTRUCTURES

- Use of negative pressure in the Operating Room is being observed every time there is an ongoing aerosolized procedure.
- When electrocautery is being used and available, a smoke evacuator is required.
- Fitting of masks and hazmat suits for the staff for everyday usage.

COMMUNICATION

- Handing-off or endorsement of patients from the COVID-19 unit or ward to the perioperative unit is done via telephone.
- Any changes or updates in the policies or protocols are promptly cascaded to the staff.
- Inventory of PPEs is monitored strictly and the staff are made aware of any deficiencies and shortages.

ENDORSEMENT OF THE PCS MODIFIED WHO SURGICAL SAFETY CHECKLIST FOR DOH HOSPITALS

Republic of the Philippines
Department of Health
OFFICE OF THE SECRETARY

December 23, 2021

DEPARTMENT CIRCULAR

No. 2021- 0576

**TO: ALL UNDERSECRETARIES AND ASSISTANT SECRETARIES;
CENTERS FOR HEALTH DEVELOPMENT (CHD) AND BUREAU
AND SERVICE DIRECTORS; MINISTER OF HEALTH -
BANGSAMORO AUTONOMOUS REGION IN MUSLIM MINDANAO
(MOH-BARMM); EXECUTIVE DIRECTORS OF SPECIALTY
HOSPITALS; CHIEFS OF MEDICAL CENTERS, HOSPITALS AND
SANITARIA; AND ALL OTHERS CONCERNED**

**SUBJECT: Endorsement of the PCS Modified WHO Surgical Safety Checklist for
DOH Hospitals**

Pursuant to Administrative Order No. 2020-0007 or "National Policy on Patient Safety in Health Facilities," all health facilities shall implement Patient Safety Strategies for key priority areas including Safe Surgical Care. DOH endorses the use of the following forms, as developed by the Philippine College of Surgeons (PCS), with roll-out done in cooperation with the periOperative Registered Nurses Association of the Philippines (ORNAP):

1. PCS Modified WHO Surgical Safety Checklist (Annex A)
2. Pre-Operative Huddle Checklist (Annex B)
3. Safety Officer Checklist (Annex C)
4. PCS Modified WHO Surgical Safety Checklist Monthly Report Form (Annex D)

The PCS Modified WHO Surgical Safety Checklist is based on the World Health Organization (WHO) Surgical Safety Checklist, previously endorsed in AO 2020-0007. All DOH Hospitals are thereby encouraged to utilize these forms with specifications on Infection Prevention and Control measures in surgical procedures. Facilities are also encouraged to consult their Infection Control Committee for further modifications to suit specific needs, relative to the COVID-19 Pandemic. The orientation video prepared by the PCS and the ORNAP may be accessed through: <https://bit.ly/PCS-ORNAP-ModSurgChecklist-Orientation>. Soft copies of the documents may be downloaded through: <https://bit.ly/PCS-WHO-SurgicalSafetyForms>.

Dissemination of the information to all concerned is requested.

By Authority of the Secretary of Health

LILIBETH C. DAVID, MD, MPH, MPM, CESO I
Undersecretary of Health
Health Facilities and Infrastructure Development Team

Philippine College of Surgeons Modified WHO Surgical Safety Checklist

Name: _____ Age: _____ Sex: _____ Date: mm/dd/yyyy ____/____/____
Pre-Operative Diagnosis: _____ Planned Operation: _____

Checklist Parameter	Question for Documentation	Response
Verified patient identity	Correct patient?	<input type="checkbox"/> <input type="checkbox"/>
Verified COVID status If other test used, indicate test/date *if RT PCR is (-) but still considering COVID	Does patient have COVID19 based on RT-PCR test? Date RT-PCR done mm/dd/yyyy Other test/Date: _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Verified COVID vaccination status	Did patient receive complete dose of vaccination vs COVID?	<input type="checkbox"/> <input type="checkbox"/>
Provided a new surgical mask to the patient if not intubated	Does the patient have a new surgical mask on?	<input type="checkbox"/> <input type="checkbox"/>
Verified planned procedure	Correct procedure?	<input type="checkbox"/> <input type="checkbox"/>
Marked site/side/level	Correct site/side/level marked?	<input type="checkbox"/> <input type="checkbox"/>
Checked signed consent	Consent signed?	<input type="checkbox"/> <input type="checkbox"/>
Confirmed imaging data	Confirmed imaging data displayed?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Checked for allergies	Does patient have a known allergy?	<input type="checkbox"/> <input type="checkbox"/>
Checked for airway or aspiration risks	Does the patient have a known airway/ aspiration risk?	<input type="checkbox"/> <input type="checkbox"/>
Checked if correct implants, prosthesis, equipment available	Correct implants/prosthesis/ equipment available?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Checked if AGP precautions in place	Are AGP precautions in place?	<input type="checkbox"/> <input type="checkbox"/>
Checked IV access	Are there two lines present for cases with EBL > 500 ml in adults? (> 7 ml/kg in pediatric patients)	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Surgical machines thoroughly wiped down and functional	Surgical machines covered in new cling wrap and functioning?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Checked if PPEs of OR staff are appropriate and intact	Are the PPEs of the operating team appropriate and intact?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Checked if team members away from patient during intubation/other AGPs	Are team members inside OR at the far end of room prior to intubation?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

Checklist Parameter	Question for Documentation	Response
Verified patient name, planned procedure & incision site	Correct patient? Correct procedure? Correct site/side/level?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Operating team introduced themselves by name and role	All team members have introduced themselves and their roles?	<input type="checkbox"/> <input type="checkbox"/>
Checked if all members of the operating team have appropriate and intact PPEs	Are the PPEs of the operating team appropriate and intact? Surgeon? First assist? Second assist? Third assist? Anesthesiologist? Anesthesia assist? Circulating nurse? Scrub nurse?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Checked if antibiotic given within 60 minutes	Has antibiotic prophylaxis been given within the last 60 mins?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
Checked anticipated critical events	To Surgeon What are the critical, non-routine steps? Expected duration of surgery? Anticipated blood loss (ml)?	
	To Anesthesiologist? Any patient-specific concerns? To Nursing Team? Has sterility been confirmed? Are there any equipment issues or any concerns?	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

Board of Directors ACCOMPLISHMENTS

ORNAP Celebrates 2nd National Perioperative Nursing

by Cecilia Pecito

Success... Another achievement highlighted the organization as we commenced the 2021 simultaneous Perioperative Nurses Week activities last November 12, 13, and 14. The 3-day activities were successfully executed despite the challenges and uncertainties that we are facing, brought about by the COVID-19 pandemic.

Goal attainment through a great deal of effort was evidently shown by the organizing committee, board of directors, past presidents, and loyal members of the organization. ORNAP Inc. recognized all of the contributions of each and every person participating in the event without any reservations.

And of course, we will certainly not set aside the support of our industry partners who have had a huge involvement in the program. Thank you is not enough to express our gratitude for their amazing generosity. Partnership and teamwork are always the fruits of success!

Good day to all of you!

For the past 2 years, we have suffered a tremendous disaster with the Corona Virus 19 Pandemic. Most of us suffered from unemployment. The business world was forced to close, and health care workers, soldiers, Grab delivery, and so-called front liners were the only ones allowed to go out. There was no available transportation. Our country and other countries were devastated and startled because of the pandemic.

We, health workers, especially doctors and nurses, were shocked by the situation. We were caught unaware. We fought the battle even if we didn't know what kind of tragedy we would face. Institutions like IATF and DOH have set interim guidelines just to fit the situation. Hospitals have set up rooms with negative pressure, installed tents, and donned or doffed. The whole world was astounded by the major disaster and its major impact on human beings.

Our organization during this time was also affected by the pandemic. We were not able to conduct the convention in July 2020. Chapters also suffered. Officers were forced to extend their terms because there was no way to conduct the conventions considering the pandemic. Until such time, we were able to get accustomed to the situation and were able to look for the brighter side and means of how to conduct webinars or virtual meetings. During the transition on how to conduct the 46th ACSM, a lot of considerations, including the advice from IATF, were considered. What, where, and how were constantly asked. All the procedures were new to us. From the type of platform, methods of election, and how to conduct the series of lectures, but through careful deliberation among the officers and advisers and with God's grace, the ORNAP's 46th ACSM and 48th Founding Anniversary turned out to be successful.

Congratulations to the officers. Congratulations also to the winners.

1. Best Chapter Award-Iloilo Chapter
2. Consuelo Arabit Award-Dr. Nerissa M. Gerial, Deputy Director for Nursing Services of the National Kidney and Transplant Institute
3. Special Recognition: MS. Teresita F. Artuz, Past President of ORNAP.

We would like to thank all our advisers, members, Chapter officers, industry partners, allied health workers, our speakers, friends, and guests; the Board of Nursing, Philippine Nurses Association of the Philippines, different organizations and associations; NKTi IT, AT3, EDSA Shangrila Hotel, Gullisoft, and Dumy for making this event possible. We truly appreciate your contributions during this pandemic and for helping to make our annual conventions a success.

We thank the Lord that, despite the difficulties brought about by the pandemic, a new beginning has come for all of us.

Have a great day, everyone. Thank you very much.

ORNAP National President
Jane Ethel C. Yraola, MAN,
RN welcomes participants.

ORNAP HOLDS 2ND PERIOPERATIVE NATIONAL VIRTUAL QUIZ BEE

by Jay Louie Madlangbayan

In celebration of the 2nd Perioperative Nurses Week with the theme "Evolve, Empower and Engage Towards Unified ORNAP", the periOperative Registered Nurses Association of the Philippines (ORNAP) Inc. held the Brain It On: 2nd National Virtual Quiz Bee last November 13, 2021.

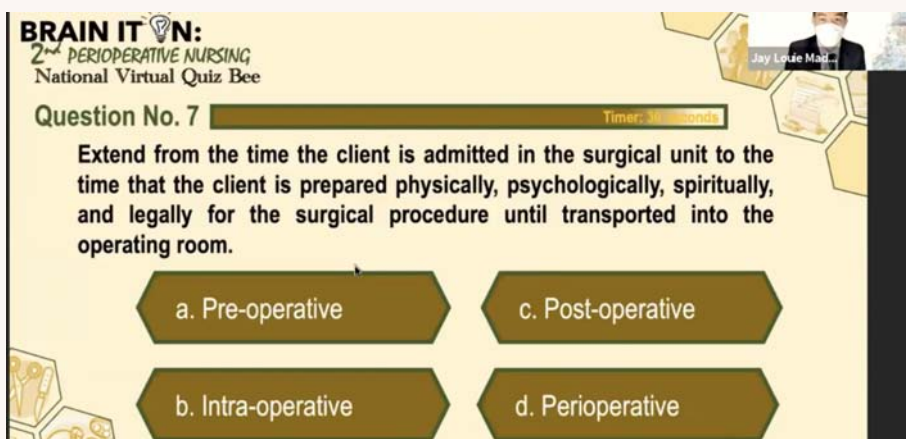

For its second iteration, the National Virtual Quiz Bee show featured questions on pre-operative, intra-operative, and post-operative phases; ORNAP history and current events related to perioperative nursing practice; and nursing research and evidence-based practice.

Livestreamed on ORNAP's official Facebook page, the National Virtual Quiz Bee was divided into three rounds: easy, average, and difficult.

The Quiz Bee was designed to be a team approach to strengthen the bond of relationships among members. The following were declared winners of the event: ITRMC-Eggheads (Ilocos Training and Regional Medical Center) received first place; Trainees of Zamboanga (Zamboanga City Medical Center) received second place; Team Long Tip (East Avenue Medical Center) received third place; Team Opera (Capitol University Medical Center) received fourth place, and Team NKT1 (National Kidney and Transplant Institute) received fifth place.

Participants from various hospitals team up for Quiz Bee.

Mr. Madalangbayan poses OR-related questions to the participants.

PERIOPERATIVE NURSES SHOWCASE THEIR TALENTS IN POSTER-MAKING CONTEST

by Leonard Gil G. Cabuang

A nationwide poster-making contest was held during Perioperative Nurses Week 2021, November 12 to 14, 2021. The event aimed to showcase the creativity and resourcefulness of nurses all over the nation amidst the hardship of the pandemic. Participants were asked to create their interpretation of the unity and resiliency of nurses to challenges posed by the COVID-19 conflict. The use of different inventive and ingenious materials was highly encouraged during the event.

The top 3 winners of the contest were the following: Patricia Anne P. Barrido from Iloilo Chapter, 3rd Place Winner; Julicita Daniel, Christian Alviar, and Jay Louie Madlangbayan from Cavite Chapter, 2nd Place Winner; and Aldrin A. Agustin from Zamboanga Chapter, 1st Place Winner. The pieces were judged by distinguished figures in the field through a Google form and were given a set of criteria properly disseminated among the participants beforehand. The poster-making contest was not merely a competition between creative artists themselves, but a reminder to everyone that each nurse has individual gifts and aptitudes that need to be celebrated.

ORNAP HOLDS 2ND PERIOPERATIVE NATIONAL VIDEO-MAKING CONTEST

by Jorwin Badana

On November 16, 2021, ORNAP Northern Mindanao Chapter emerged as the winner and bested the other four entries in the Perioperative Nurses Week 2021 Video Making Contest with the theme: *"Evolve, Empower, and Engage Towards Unified ORNAP"*.

Entries were judged based on creativity, originality, message content, and technical organization. The highlight, however, was the showcase of sacrifices, innovation, collaboration, and the best practices of perioperative nurses in this pandemic through videos.

Yet another remarkable endeavor from our perioperative nursing heroes, exhibiting artistry and teamwork despite hectic work schedules and the current situation.

ORNAP MANUALIZATION, WHERE ARE WE NOW?

The ADHOC Committee on Manualization would like to inform and update our perioperative members regarding the progress and development of the ORNAP Manual. One hundred percent (100%) of the policies, guidelines, and procedures of the ORNAP Manualization processes are almost done by the committee, which comprises twelve (12) Chapters, such as Chapter I – Organization, Chapter II – Membership, Chapter III – Record and Management, Chapter IV – Financial Management, Chapter V-Meeting, and Convention, Chapter VI-Continuing Education, Training, QI, and Research, Chapter VII-Publication, Information, and Partnership, Chapter VIII-General Welfare, Chapter IX – Awards and Recognition, Chapter X – Election, Chapter XI – Vacancies and Disciplinary Procedures, and Chapter XII – Writing the Manual.

The ORNAP Standard Template was created/developed out of these twelve (12) sections according to the ORNAP Standard Template, based on ORNAP by-laws, and approved and available for use by the ORNAP National and Local Chapters of the Association.

On behalf of the ORNAP ADHOC Committee on Manualization, the committee would like to extend our thanks and appreciation to our beloved past presidents of ORNAP as contributors and advisors for the success of this project. To our local chapters: thank you.

And first and foremost, to our Almighty God the Father for his guidance and wisdom in guiding the committee to complete this ORNAP Manual.

Rosario G. Dumangon

In a rapidly changing world where legislative, social, and economic developments directly affect the environment in which we live and work, and where technological advancements provide radically different ways of working, Continuing Professional Development (CPD) provides a means whereby we can keep abreast of these changes, broaden our skills and be more effective in our professional work. The association continually offers and conducts relevant continuing professional development programs and activities. The COVID-19 Pandemic is not a hindrance to fulfilling its objectives; to provide opportunities for continuous professional and personal growth through diversified educational activities, and encourage relevant exchange and sharing of knowledge in the field of perioperative nursing through research and scientific discussions. This situation instead opens the opportunities for an online discussion and learning that is accessible to all members. Through this webinar, learning takes place and information is disseminated, thus allowing the perioperative practitioners to be resilient and competent despite of the challenges. Online processing of the CPD applications was also implemented which our organization notably embraced and strictly followed. The Professional Regulation Commission (PRC) created a Continuing Professional Development Accreditation System for online application for accreditation of CPD Providers, CPD programs and crediting activities.

CSR ACTIVITIES NATIONAL CHAPTER

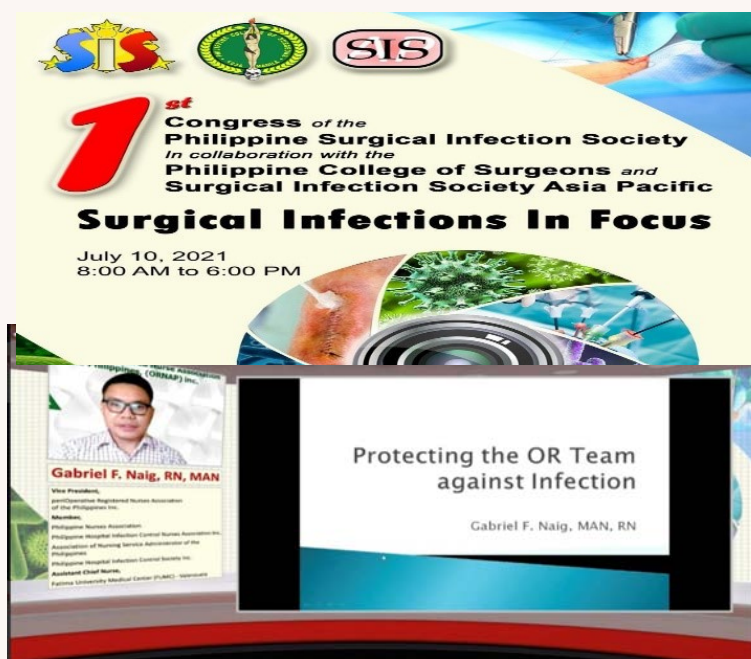

MEET AND GREET WITH BON

PSIS-ORNAP

by Gabriel F. Naig

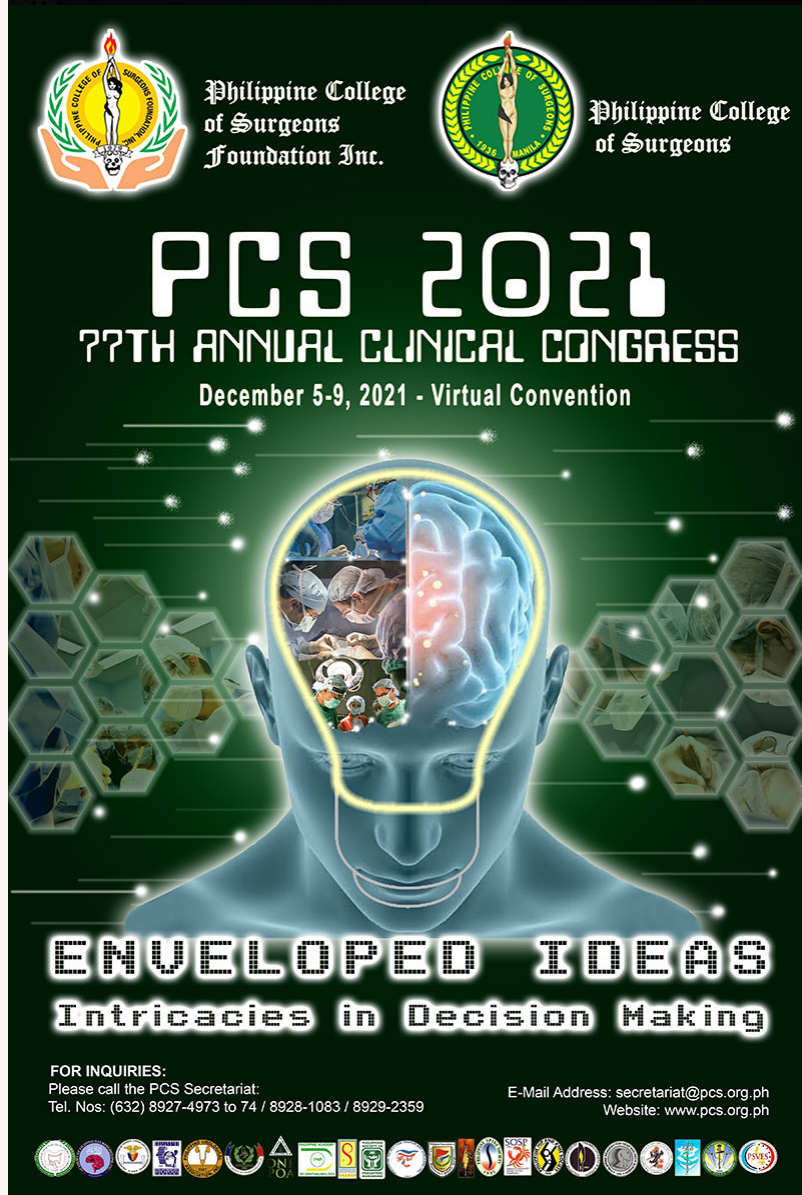

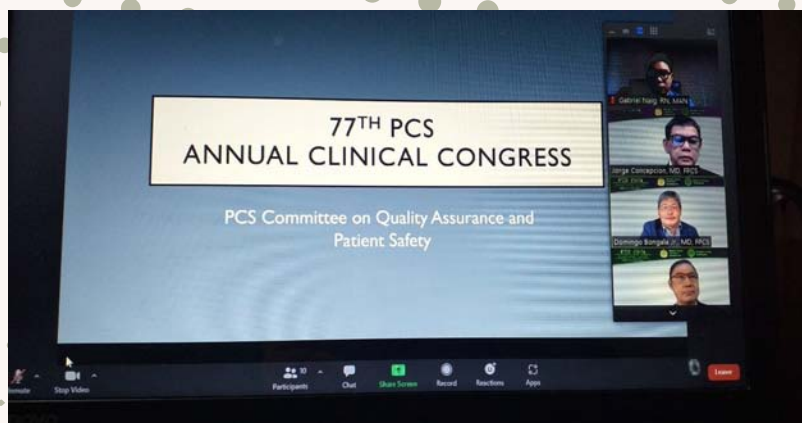

The Philippine Surgical Infection Society, in collaboration with the Philippine College of Surgeons and the Surgical Infection Society of Asia Pacific, conducted its 1st Virtual Congress with the theme "*Surgical Infection in Focus*" last July 10, 2021. Our association is privileged to be invited and speak on the topic, of protecting the OR Team against infection, along with the experts in their field, locally and internationally. This activity aims to update and enhance the knowledge, skills, and attitude towards infection prevention and control. Moreover, this is an avenue to become an advocate and practice infection control and prevention as a member of the team.

According to the WHO, every year, millions of patients suffer injuries or die because of unsafe and poor-quality health care. Many medical practices and risks associated with health care are emerging as major challenges for patient safety and contribute significantly to the burden of harm due to unsafe care. One of which is that unsafe surgical care procedures cause complications in up to 25% of patients. Almost 7 million surgical patients suffer significant complications annually, 1 million of whom die during or immediately following surgery.

To acknowledge the situation and strengthen policies and systems, the Philippine College of Surgeons (PCS) held a panel discussion on December 8, 2021, during its 77th Annual Clinical Congress on December 5 to 9, 2021, on the Committee on Quality Assurance and Patient Safety. Our organization was invited as part of the panel of experts. The panel of reactors were each expert in their specialty and shared their insights boldly.

This advocacy is a multidisciplinary approach wherein preventive measures, monitoring, reporting systems, and management support are vital.

Monetary and Vitamins Aids to Different Chapters

by Jennifer Capili

The words that best describe the Christmas season are "cold breeze," "caroling," "lights," "lanterns," "gifts," and "puto bumbong". But for some people who are struggling because of this pandemic, Christmas Day will be just an ordinary day for them.

One of its beneficiaries for this year's ORNAP's Christmas gift-giving is Sister Anna Virginia Magpily and the SSps Sisters of the Holy Spirit Convent in Quezon City. This was held on December 8, 2021, and was attended by the National Board of Directors. Packed food and toiletries were distributed among the members of the convent.

ORNAP National also extended Christmas cash assistance to ORNAP Chapters that are actively involved in the organization's activities. A Board Resolution was filed and approved by the National Board of Directors. This cash assistance will be used to purchase vitamins, PPEs, and medicines for their members.

Indeed, Christmas is the season to celebrate the birth of our Savior and the season of giving and sharing. May we not stop extending our helping hands and continue to be a blessing in the best way that we can.

An Immaculate Gift

by Ernest Tolentino

Life is a gift
Precious to you and me
Given Freely from up above

On the Feast of the Immaculate Conception of Mary last December 8, 2021, the ORNAP National Officers, headed by Ms. Jane Ethel C. Yraola, paid a visit to Sister Anna Virginia Magpily, past ORNAP president, and the SSps Sisters at the Convent of the Holy Spirit in New Manila, Quezon City. A brief "kumustahan" with Sister Anna, together with the ORNAP officers and some ORNAP past presidents (through ZOOM meeting), transpired, followed by a small merienda and gift giving for the 50 nuns that reside in the convent. Although the officers who visited the convent weren't able to meet with the other SSPs sisters due to some safety restrictions, the nostalgia of seeing Sister Anna and reminiscing her time with ORNAP gave a renewed inspiration and hope that ORNAP would be resurgent and triumphant against adversities.

(Present in the Visit: Jeovy Joya, Cecilia Pecito, Liza Santiago, Rosario Dumangon, Jane Ethel Yraola, Ernesto Tolentino Jr., Sister Bernadette Oppus SSps (Blue), Sister Anna Virginia Magpily SSps (white).

Welcome to our New Home

By: Jane Ethel C. Yraola, MAN, RN
National President,
excerpt from the President's Report

March 24, 2022, is an important date for all of us, as this was the day that ORNAP acquired its new office, located at 21 Brahms St., Ideal Subdivision, Commonwealth Avenue, Quezon City. A goal forty-nine (49) years in the making, with careful planning, criteria setting, and legal consultation, we can all finally have a home. Truly, God is good! despite all the challenges he provides.

This is a symbol of unity, resilience, and continuous support from the ORNAP community and is part of our commitment to serving our members, clients, and others for their personal growth and professional development guided by our logo; Caput, Cor, Manus. We finally have a Domus (home) for raising the bar of excellence in perioperative nursing practice.

Its blessing and unveiling were held on June 11, 2022, with officers, members, friends, and industry partners present physically and virtually. Our heartfelt gratitude to everyone. You are all welcome to our new home, everyone's answered prayer.

GENERAL WELFARE AND SOCIAL RESPONSIBILITY UPDATES

"A life not lived for others is not a life." - Mother Teresa

Jennifer Capili, RN, MSN- National Board Member & Committee Chairman

Donate Blood: Save Lives

A simultaneous blood drive activity was held on November 13, 2021, as part of the 2nd Virtual Perioperative Nurses Week Celebration. This was spearheaded by Ms. Jane Ethel Yraola, National President, together with the National Board of Directors. This 3-hour event was held at the National Kidney Transplant Institute (NKTi) and attended by the ORNAP national past presidents, members, and non-members as well. More than 30 successful donors were able to spare their blood for those patients who needed it the most. There were also five participating chapters that joined this event: Oriental Mindoro, Zamboanga, Leyte, Misamis Occidental, and Northern Mindanao Chapter. As Ms. Yraola mentioned during the live conference, "Donating blood really saves lives, so if you are able and capable of doing so, donate your blood now."

KAPEHAN WITH CHAPTERS

by Jane Ethel C. Yraola

The ORNAP national officers visited the Laguna and Cavite Chapters on May 28, 2022, and Pangasinan and Baguio on June 12, 2022, with the goal of strengthening ties, empowering, and boosting the morale of our chapters.

The national and chapter officers had a short but intimate "kamustahan". We had a discussion on how to overcome difficulties encountered during the pandemic and find means to mutually help each other towards a resurgent and triumphant ORNAP.

TREE PLANTING ACTIVITY

by Jennifer Capili

He who plants a tree, plants a hope—this year's theme for ORNAP's Tree Planting Activity held at the DENR Nursery at La Mesa Dam in Quezon City last June 11, 2022. As part of the organization's social responsibility, its officers, members, past presidents, and partners took part in this significant event. A total of 134 Earth-warriors in Metro Manila participated, as well as different chapters from all over the country. Cagayan Valley, Misamis Occidental, Oriental Mindoro, Northern Mindanao, Davao, and Zamboanga all joined in this momentous event. As what the ORNAP President, Ms. Jane Ethel Yraola, reminded us, "We should encourage everyone to plant a tree because it will give us new hope, new life, and a safe environment for our future."

CAGAYAN VALLEY CHAPTER

During these trying times, the ORNAP Cagayan Valley Chapter honored our modern heroes who are fighting valiantly on the frontlines. The crisis has demonstrated the compassion and perseverance of our health professionals and their heroic willingness to make sacrifices to protect our community.

The Chapter distributed COVID Kits to the officers and members who are infected with the COVID 19 Virus and are currently admitted at Cagayan Valley Medical Center and distributed ready-to-eat foods to those staff who are currently deployed in the COVID Isolation Wards at Cagayan Valley Medical Center.

Furthermore, in celebration of its 10th anniversary of existence, the ORNAP Cagayan Valley Chapter presented its 9th Annual Regional Convention and Scientific Meeting with the theme "Perioperative Nursing Care: Above and Beyond Uncertainty". With the eloquent speakers, the chapter held its convention virtually via Zoom on February 26, 2022, from 8:00 a.m. to 4:00 p.m.

CARAGA CHAPTER

The whole world came to a stop when COVID-19 hit us really hard. The organization's planned activities come to a halt when we, as front liners, not only have to think about the cases rising but also about our safety and that of our families. Thankfully, thanks to technological advances, we were able to develop vaccines that helped us combat the deadly effects of the COVID virus, ushering in our "new normal". After 2 years, as we faced our "new normal", we were able to once again meet as an organization through virtual meetings using different platforms available. With ORNAP NATIONAL leading the way, ORNAP CARAGA was able to conduct its 10th Regional Convention through the online portal sponsored by IDS MED on October 9, 2021. It may be a virtual meeting, but the beauty of it is that it was able to reach members not just within the CARAGA region but across the globe.

CAPIZ CHAPTER

Roxas Memorial Provincial Hospital, Capiz Chapter with the Chief Nurse Robynil A. Alba of Capiz Memorial Hospital, ORNAP previous President Regina Palomo, OR Supervisor and ORNAP National Auditor Rosario G. Dumangon, Coordinator of said chapter, visited as "kamustahan" with ORNAP members.

DAVAO CHAPTER

Count your Blessings

ORNAP Davao representative, Carmencita "Bait" Tan, went straight ahead to Surigao Province to distribute relief goods to our fellow brothers and sisters who were victims struck by typhoon Odette. The relief operation was conducted on January 9, 2022.

Service amidst Pandemic

Truly committed to serving others, ORNAP Davao adviser, Oscar C. Bacatan Jr., shares his experience and expertise in the perioperative arena as a resource speaker in a seminar for OR nurses held in Davao del Norte. Our movement may be limited by the pandemic, but our commitment to serving is limitless.

Calling outside the Field

Who says OR nurses are just kept inside the Operating Room? ORNAP Davao current Board of Directors and advisers selflessly volunteered as vaccinators to fight COVID-19. The vaccination campaign and activity benefited 700 individuals in Brgy. Ma-a, Davao City.

VaccinatORS

A Series of vaccination programs was conducted in different areas in Davao City, and ORNAP Davao nurses never hesitated to be a part of the solution to beat COVID-19.

Because ORNAP Cares.

Despite the pandemic, ORNAP Davao nurses are true to their commitment to serving with compassion. A surgical mission to correct cleft lip and palate was conducted for underprivileged children in partnership with the Mabuhay Deseret Foundation.

ILOILO CHAPTER

ORNAP Iloilo joined the 3 days National Vaccination Day held at WVSU Auditorium last November 29, 2021, to December 1, 2021.

& SCIENTIFIC MEETING

**ORNAP: A HALLMARK
OF EXCELLENCE**

November 21, 2021 7:00 AM - 5:00 PM

NORTHERN MINDANAO CHAPTER

WAO OPERATION TULI

WAO, Lanao del Sur's Tuli Mission was conducted in the Wao District Hospital last November 26, 2021. ORNAP-NMC officers led by Ms. Karla Marie Leyson, President, together with Ms. Ethel Rose Basit, Vice-President, Ms. Merlyn Aniñon, Treasurer, and Ms. Genevieve Aclo, BOD, went to the Municipality of Lanao del Sur for a Tuli Mission. 21 young men were the recipients of the services. The activity took place from 9 am to 2 pm at Wao District Hospital.

ZAMBOANGA CHAPTER

"Uplifting front liners morale: Sharing is Caring"

Being on the frontline isn't easy. It takes so much courage and dedication to do it.

As front liners working in a COVID facility, we can see how tired everyone is now. day after day, morning and evening shifts, and in every corner of the hospital. We are all exhausted and consumed. not only physically, but also emotionally, and spiritually.

But ORNAP Zamboanga Chapter believes that despite and inspired by our present scenario, there is always hope. Sunshine in every dark room. A rainbow at the end of every storm. We believe, with a simple act of kindness, we can somehow lift the front liners' morale amidst these challenging times.

On October 28, 2021, as the chapter celebrates its 15th year of service, ORNAP Zamboanga made a small act of kindness to honor our heroes by sharing whatever we could at Zamboanga City Medical Center. Despite the challenging season and our modern heroes fighting on the battlefield of an unseen enemy, let's put a smile on their faces and joy in their hearts.

ORNAP Zamboanga reminds all our front healthcare liners that their tireless efforts and dedication are not going unnoticed. We fight as one. We heal as one.

PANGASINAN CHAPTER

Despite the ongoing pandemic happening in our nation, the ORNAP: Pangasinan Chapter has assisted in the World Surgical Foundation: Surgical Mission in Mangatarem. We have catered to almost 200 patients in the municipality who needed surgical assistance. We have also been lucky enough to be visited by the national officers, who acknowledged our struggles in our chapter. They have advised us on what we should do on our next chapter journey and assured us that the national chapter's guidance would not be lost. The Pangasinan chapter has pledged the total support of our province to the national as a striving chapter in ORNAP.

Mabuhay Pangasinan! Mabuhay ang ORNAP!

ORIENTAL MINDORO CHAPTER

CONGRATULATIONS ORNAP ILOILO

Best Performing Chapter 2021 - 2022

CONGRATULATIONS ORNAP ILOILO

Best Performing Chapter 2021 - 2022

To our ORNAP National President, Ma'am Jane Yraola, to our ORNAP National Vice President, Sir Gabriel Naig, and the rest of the Board of Directors, honorable guests and luminaries, to my colleagues in perioperative nursing, ladies and gentlemen, "Maayong aga sa inyo tanan". When they say, "Papunta pa lang tayo sa exciting na part", I guess this day is the realization of that statement. *At eto na nga yung exciting na part.* On behalf of the ORNAP Iloilo Chapter, I would like to take this opportunity to thank the Awards and Recognition Committee, and the National Board of Directors for this "Best Performing Chapter Award". This recognition may not be possible if not because of the guidance of our Iloilo Chapter Past Presidents and Advisers. To the ever-supportive OR Supervisors of the different hospitals in Iloilo, likewise, to the members of the Academe, OR clinical instructors of nursing schools of Iloilo, who also became part of our annual strategic planning, thank you for your unwavering support. To my co-chapter officers, who accepted the challenge to be of service to perioperative nurses and the community despite the pandemic, know that I am so proud of you guys.

Lastly, the video you saw a while ago, and this award are our tribute to our beloved ORNAP members, your trust and loyalty motivate us to do more, to do better, and be our best in upholding the vision, mission, and the core values of this organization to create an impact in our profession and in the community. All the hardships and sacrifices we've been through in the midst of the pandemic have finally been put to fruition. It was never easy, but as long as we have conscientious minds, compassionate hearts, and hands that are ready to serve others, all things are possible. *Madamo gid nga salamat, Ilonggo nurse ako kag bugal ko ang ORNAP Iloilo.*

Hala Bira, Iloilo.
Padayun, ORNAP.
